

FONDERIE MORA GAVARDO INTEGRATED POLICY

The main aims of Fonderie Mora Gavardo S.p.A. are, on the same level of profitability, quality of products and services, workplace safety (WSH), environmental protection and compatibility between its own activities and the territorial context in which the firm operates. The company management is committed to make its Integrated Policy available to anyone who asks for it:

QUALITY

- To acknowledge the explicit and implicit needs of the customers;
- To make a reliable and technologically advanced product, aligned with the best competition and with the respect for the compulsory requirements, offering an efficient and effective service;
- To satisfy the customers' expectations;
- To aim at the satisfaction of the organization's personnel;
- To search for and do actions aiming at a continuous improvement, following "Lean" principles
- To implement and maintain an effective Quality Management System according to the requirements of the regulations UNI ES ISO 9001, updating and applying systematically the defined procedures and the prescriptive documents as help provided to the Organization; extend the Quality Management System to the additional requirements of the automotive industry (IATF);
- The objectives defined have to be weighed, achievable, coherent with the Camozzi Group's strategies; *identify and manage risk and opportunity with risk based thinking approach*
- To check periodically the course of the Company Management through the instruments of the Quality System; to update and re-define the Quality policy with new objectives in relation to the obtained results;
- To analyze the causes of non-conformity as starting point in order to define proper actions to be taken.

ENVIRONMENT, WORKPLACE SAFETY AND HEALTH (WSH)

- To guarantee that its own activities are being done in accordance with current legislation regarding workplace safety and health (WSH) and environmental protection, and with possible undersigned codes of practice;
- To acknowledge the explicit and implicit needs of the interested parties;
- To implement and maintain an effective Environment System accordant with the requirements of the regulation UNI ES ISO 14001
- To promote the policy for the environmental protection as well as of safety and health of workers through information, education, involvement of its own employees as well as of anyone working for the Organization;
